MERCH PRINT BRIEF • REV B

Black crew-neck tee

Three placements: a left-chest lockup on the front, a small mark under the back collar, and a full back print. All artwork is vector with text converted to outlines, so no fonts need to be installed.

INKS

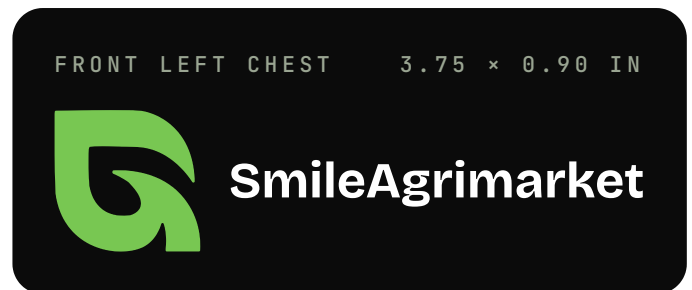

Two inks, taken from the logo

Leaf green is sampled from the SmileAgrimarket logo files. The Pantone value is the closest coated match; confirm it against a drawdown on black fabric before the run.

White	Leaf green
HEX #FFFFFF	HEX #78C752
PMS Bright white	PMS 360 C

PRODUCTION NOTES

For the printer

Method

Screen print with plastisol or water-based ink. DTG also works with the 300 dpi PNG files. Print a white underbase under every colour so the greens and yellow stay bright on black.

Logo rules

The leaf mark prints in leaf green on black. Approved alternates are dark green, black and cream versions for other garment colours. Don't stretch, outline or add effects to the mark or wordmark.

Typefaces

Bricolage Grotesque Bold and Medium for the wordmark and tagline; JetBrains Mono for labels and the domain. Both are outlined in the files.

Garment

Black crew neck, 100% ringspun cotton, 180 to 200 gsm. Sizes S to XXL. Use the 10 in back print for S and M, 11 in for L and up.

Fine detail

The smallest element is the website text under the collar (about 0.16 in cap height). Check it holds on the screen mesh before running the order.

Approval

Send a photo of one strike-off per placement for sign-off before the full run.

Print-ready files

Kept in the SmileAgrimarket repository under `design/merch/black-tee/`. Artwork has transparent backgrounds; the black areas are the garment, not ink.
